**The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

1) □ Responsive to communication(s) filed on _______.
2a) □ This action is FINAL. 2b) √ This action is non-final.
3) □ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

4) √ Claim(s) 1-22 is/are pending in the application.
   4a) Of the above claim(s) _____ is/are withdrawn from consideration.
5) □ Claim(s) _____ is/are allowed.
6) √ Claim(s) 1-22 is/are rejected.
7) □ Claim(s) _____ is/are objected to.
8) □ Claim(s) _____ are subject to restriction and/or election requirement.

**Application Papers**

9) □ The specification is objected to by the Examiner.
10) □ The drawing(s) filed on _____ is/are: a) □ accepted or b) □ objected to by the Examiner.
    Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
    Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
11) □ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

12) □ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
    a) □ All  b) □ Some * c) □ None of:
    1. □ Certified copies of the priority documents have been received.
    2. □ Certified copies of the priority documents have been received in Application No. _____.
    3. □ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

**Attachment(s)**

1) √ Notice of References Cited (PTO-892)
2) □ Notice of Draftsperson’s Patent Drawing Review (PTO-948)
3) √ Information Disclosure Statement(s) (PTO-1449 or PTO/SD/08)
   Paper No(s)/Mail Date 4/14/04.
4) □ Interview Summary (PTO-413)
   Paper No(s)/Mail Date. _____.
5) □ Notice of Informal Patent Application (PTO-152)
6) □ Other: ______.
DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

   A person shall be entitled to a patent unless –
   
   (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 7-9, 11, 12, 16, 17, 21, and 22 rejected under 35 U.S.C. 102(b) as being anticipated by Sabbattini.

   Regarding claim 1, Sabbattini discloses a pipeline communication system comprising a pipeline 10 having a first surface extending along at least portion of a length of the pipeline, a conductive bus 10, a transmitter 2, and a receiver 3.

   Regarding claim 11, Sabbattini discloses a pipeline communication bus comprising a communication bus 10 including a first conductive trace (at 2) and a second conductive trace (at 3), a transmitter interface 2, a receiver 3.

   Regarding claim 16, Sabbattini discloses method of communicating along a pipeline comprising forming a plurality of conductive traces (at 2, 3) coupling to a pipeline at a surface extending along at least a portion of the length of the pipeline, transmitting (2) information along the plurality of the conductive traces and receiving (3) information along the plurality of the conductive traces.

   Regarding claim 2, Sabbattini discloses a plurality of conductive traces (at 2, 3) conformally fabricated to the surface of the pipeline.

   Regarding claims 7, 21, Sabbattini discloses an external surface.

   Regarding claims 8, 22, Sabbattini discloses an interior surface.
Regarding claims 9, 12 and 17, Sabbattini discloses a serial bus protocol (figures 1-3).

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sabbattini.

   Regarding claim 10, Sabbattini discloses all the claimed subject matter as set forth above in the rejection of claim 9, but does not disclose an RS-485 protocol. However, it would have been obvious to have the protocol to be an RS-485 protocol since it is not inventive to discover the optimum or workable ranges by routine experimentation.

5. Claims 3-6, 13-15, 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sabbattini in view of Moore.

   Regarding claims 3-6, 13-15, 18-20, Sabbattini discloses all the claimed subject matter as set forth above in the rejection of claim 2, but does not disclose thermally sprayed, electrically conductive material (claims 13, 18 and 3), a first insulative layer (claims 4, 14, 19), a bonding layer (claim 5), a second insulative layer (claims 6, 15, 20). Moore teaches the use of thermally sprayed, electrically conductive material (abstract),
a first insulative layer, a bonding layer, a second insulative layer (column 10, line 55-
col. 11, line 5). It would have been obvious at the time the invention was made to a
person having ordinary skill in the art to include thermally sprayed, electrically
conductive material, a first insulative layer, a bonding layer, a second insulative layer to
the system of Sabbattini as taught by Moor for the purpose of isolating the conductive
traces from the surface of the pipeline.

6. The prior art made of record and not relied upon is considered pertinent to
applicant's disclosure.

Soulier and Vinegar discloses pipeline communication systems.

Any inquiry concerning this communication or earlier communications from the
examiner should be directed to Anh V. La whose telephone number is (571) 272-2970.
The examiner can normally be reached on Mon-Fri from 9:30am to 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's
supervisor, Jeffery Hofsass can be reached on (571) 272-2981. The fax phone number
for the organization where this application or proceeding is assigned is 571-273-8300.
Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
